

Smart solutions.
Strong relationships.

Experience the gentle sway of nature!

Fans Range 2010

Designed for Every Emotion!

Crompton Greaves Fans Division is proud to be the initiator of the Electric Fan revolution that has swept the sub-continent.

The production of fans started with Crompton Parkinson as early as 1937. The Fans Division's 70 years of experience has transformed the concept of the fan from a need, to an object of grandeur.

With a portfolio of stunning models representing class and style, we've spread far and wide across applications and segments. We have extended our facilities from Bethora and Kundaim in Goa to a new factory at Baddi in Himachal Pradesh. We provide maximum customer satisfaction through a marketing networking consisting of 23 branches spread over the country, and 4 regional sales offices in the metros of Delhi, Kolkata, Mumbai, and Chennai.

Here's an attempt to inspire your imagination.
